

Math Acceleration

July 16, 2015

Missy Walker
HCS Math Coordinator

HUNTSVILLE CITY
SCHOOLS

What is Math Acceleration?

- Mastery of grade-level standards
- Deepening of conceptual knowledge
- Application of mathematical practices
- Real world connections
- Recognizing that everything a student needs to know about Algebra begins in kindergarten

New schedule for Math

- Elementary grades departmentalized for math in grades 3-6
- 90 minute block for math each school day
- 90 additional hours of math instruction school year
- Fridays will focus on small group and individualized learning activities

Elementary Math Classroom

- Focus on Standards of Mathematical Practice
- Conceptual Understanding
- Differentiation & Scaffolding
- Small groups
- Centers
- Math Talks

Fridays in Math Class

- Acceleration
- Support
- Enrichment
- Individualized Learning
- Performance Based Assessments
- Project Based Learning

Elementary Math Teams

- All elementary schools will have a math team
- All interested students can participate
- Team meetings will occur during the school day
- Intramural competitions
- Opportunities for state and national competitions
