### What Makes Monte Sano Special?

From a small self-contained 1800s rural community, Monte Sano ballooned with the Space Age. By 1958 there were approximately 100 families connected with the Space Program living on Monte Sano. Many were von Braun Rocket Team Members. The school was founded in September, 1959. Constructed as a flat-roofed building with six rooms, kitchen and office. The school became the central core of education and community life.

Monte Sano Elementary is a community school with around 280 students. Parental involvement at the school is at a high level. The PTA has achieved 100% membership 36 years. We are a Blue Ribbon Schools of Excellence Lighthouse School.
