IV.H.3.

IV.H.3 –Measures to Make Students Aware of Extracurricular Activities

In addition to the steps that the District has taken to support schools in meeting their participation targets, the District took steps to ensure that all students were aware of academic clubs and related extracurricular opportunities. The measures the District took included:

- **Conducted interested and outreach efforts at the student's home zoned school.** For example, middle and high schools conducted at least 1-2 club fair days during 2016-2017 school year. Each club and organization set up tables with information about the club as well as a sign-up sheet to recruit new members. For example, Hampton Cove conducted their Shake Night on May 2, 2017. During this event, all clubs and organizations had tables set up for rising 6th, 7th, and 8th grade students.
- **Annual I-Register Event.** This event was held on Saturday, March 4, 2017 at the Von Braun Center North Hall. The purpose of this event was to inform parents and students about upcoming course offerings, clubs, and extracurricular activities offering at every middle and high school across the District.
- **Rack Cards.** The District printed rack cards for all six high schools that highlight and advertise all clubs and organizations offered in their building. The rack card is the size of a bookmark, which is something students can easily access and carry around with them. Copies of these rack cards are on the following pages.
- **Posting Online.** All schools posted online the clubs and organization offered in their building and sent home hard-copy materials to parents/guardians advertising all school-sponsored clubs and extracurricular activities.

- **4 academic ½ days were allowed for in-school club participation.** These dates, which are listed below, ensure that students are both made aware of and able to participate in clubs.

- September 3, 2016
- October 26, 2016
- February 15, 2017
- March 31, 2017
